

# Start recruiting UE students and alumni!

## Advertise in the next edition of **The Next Step: A Guide to Career Development.**

**Copies of this guide** were distributed to students and alumni last year! Increase students' awareness of your company's employment opportunities and build brand recognition. A **full color** ad in the guide will display your company's information as students and alumni consider full and part-time, internship and co-op experiences as part of their job search processes.
